To whom it my concern.

Few months after I moved to Sand City in 2016; I realized there were 27 artists creating artwork on daily basis within four blocks radius of my kitchen table. I saw this as a great privilege and I wanted to respond to this gift from the universe, so I set out to meet these artists; took their portraits and invited all of them to participate in a group show.

The idea that came to me at the end of that show was to get these artists to create a piece of public art, so driving in Sand City will feel like driving in a modern art museum. And this is what I have done about that so far.

1- Beehive Art Project
Krimp, one of Sand City artists is currently painting a stack of five beehives that are in the community garden. This project will most probably be done by the end of September.

2- Hickory Street Art Project
This project, which is the subject of this application, involves the building located at 1738 Hickory Street in Sand City. The owner, Mr. Mike Hubbard, has given this art project his consent. The artwork is by Sand City artist Suzanne St.John. The execution will be by the Sand City resident, Cody Hubbard and a group of Sand City artist volunteers. Philip Priddy, a professional painter, is volunteering as an advisor. The paint will be purchased from John Fisk Paint Store in Sand City and the equipments will be donated by local contractors. I am not asking for any city money. This art project will be financed by private donations. I am hoping to get this project done in June of 2020.

Thank you for your consideration.
